Happy buyback clients

The process is simple and gets good value to you as a company. Every company should recycle with CashKr.

— **Roche Pharma**

They provide the best value for old and used devices which helps us close new clients even faster.

— **SRSR**

Smooth experience and fare prices with not much to do from our side as they take care of everything smoothly.

— **Browserstack**

We Are Always Striving To Make A Difference By Helping Recycle For A Greener Future

Best Class Service At
Your Office

Right Value Paid As
Per The Market

End To End Support
For Faster Processing

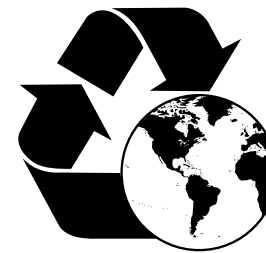

Why Have Us On Your Side?

We understand how important security is when it comes to an Enterprise. It should be given the most priority, and here we stand, promising the best secure way to recycle.

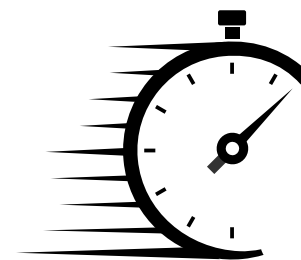

Data Safety

We make sure all your data is erased before it leaves your office. We also provide a data security certificate

Earth Friendly

These devices are sold again and hence reduce e-waste. One man's trash is another man's treasure

Fast & Hassle-Free

It only takes a days time to clear everything from Quote to Cash and that too best prices paid for your used devices

What We Do For Corporates?

- ✓ Managing corporate devices and keeping track of every single device until they reach the disposable stage.
- ✓ Once the device reaches the disposable stage we start generating values for such devices and find ways to recycle them on behalf of corporates.

- ✓ We follow the Max value provider process (MVP), where different vendors bid for the stock & the highest bidder gets the deal, maximizing the value of old devices by 20%. It's Greener for the environment & Old assets are cleared. So It's A Win-Win

What Happens To The Devices Given To CashKr Buyback?

We Reuse

We believe in an ecosystem where devices are recycled, refurbished and reused. This leads to less demand for new products, which leads to lesser E-Waste.

We Reduce

All products we buy back are refurbished and sold back to consumers through our vendors, who play a very important role in this Eco-Friendly process. That's how we reduce E-Waste

We Recycle

All the data is wiped with a rigid process so it cannot be backed up again. We follow all safety measures and also give you a green Certificate for Recycling

Some Valuable Clients

How Buyback Process Works

START

1 Sales Order Request Raised By Client

2 Sales Order Format Shared By CashKr

3 Client To Share Device Details As Per Format

4 CashKr To Share Quick Quotation With Client
